MEMORANDUM FOR: Security Branch/DPD

25X1A

SUBJECT : Altitude Chamber Run - []

25X1A

25X1A

1. [] has called to our attention that all [] are past due on an altitude chamber run. The completion of such a run gives a substantive insight into the individual's physiological state well-being.

25X1A

2. It appears that the altitude chamber at Edwards AFB would be made available to us for these purposes. [] would be scheduled for the run as employees of LAC. I am informed that bona fide LAC pilots have, in fact, gone through the Edwards chamber program. It is also known that one of the supervisors at the chamber was formerly associated with the IDEALIST team. I do not recall the identity of this man.

3. Please advise whether or not you would interpose any objections to scheduling the chamber run at Edwards as well as any conditions you feel should be attached to such testing at Edwards.

SIGNED
